

Fears have a limiting effect upon our abilities and talents. We have enormous, untapped power at our disposal...and we need a way to rid ourselves of those fears in a way that will not have the potential to create a whole different and, perhaps even worse, set of emotional and psychological challenges than both the conscious and unconscious fears that obstruct our true destiny. In *Beyond Fear*, you will begin to understand and accept a potential within that you may not have even dreamed possible...PLUS a practical and simple way to reach YOUR potential. You will be challenged to change your perspective ever so slightly, but safely according to what works best for you! Once you are beyond your fears, a whole new world will open to you...YOUR world. A brand new world filled with hope and promise.
