

Rollercoaster: How a man can survive his partners breast cancer

Rollercoaster is a comprehensive memoir-chronicle and guide to up-to-the-minute scientific research, meds and where to get help. It shows how Nancy Fox and her husband Woody Weingarten coped with breast cancer, its treatments and its aftermath and how you can as well. Almost 250,000 new breast cancer cases are diagnosed annually. Male caregivers (husbands, boyfriends, fathers, sons and brothers) typically become a forgotten part of the equation. Yet they, too, need support. Rollercoaster can help provide it. Weingarten, a prize-winning journalist pro for 50 years, has led a male partners group for two decades. Though he became an expert reluctantly, he now unflinchingly shares what he's learned.
