Now, in a finger-on-the-pulse examination of this growing trend, Deirdre Bair, New York Times bestselling author and winner of the National Book Award, explores the many reasons why older, long-married couples suddenly decide to break up. Having conducted nearly four hundred interviews with ex-wives, ex-husbands, and their adult children, Bair reveals some of the surprising motivations that lead to these drastic late-life splits, as well as the unexpected turns life takes for all concerned after the divorce is final.
