

Up to 2012, Mali was a poster child of African democracy, despite multiple signs of growing dissatisfaction with the democratic experiment. Then disaster struck, bringing many of the nations unresolved contradictions to international attention. A military coup carved off the countrys south. A revolt by a coalition of Tuareg and extremist Islamist forces shook the north. The events, so violent and unexpected, forced experts to reassess Malis democratic institutions and the neoliberal economic reforms enacted in conjunction with the move toward democracy. Rosa De Jorios detailed study of cultural heritage and its transformations provides a key to understanding the impasse that confronts Malian democracy. As she shows, postcolonial Mali privileged its cultural heritage to display itself on the regional and international scene. The neoliberal reforms both intensified and altered this trend. Profiling heritage sites ranging from statues of colonial leaders to womens museums to historic Timbuktu, De Jorio portrays how various actors have deployed and contested notions of heritage. These actors include not just Malian administrators and politicians but UNESCO, and non-state NGOs. She also delves into the intricacies of heritage politics from the perspective of Malian actors and groups, as producers and receivers--but always highly informed and critically engaged--of international, national and local cultural initiatives.
