

Nullands: Sections of a series of planets sealed off by an energy barrier, called the Divide, filled with danger, where technology does not work. Tarn is part of the Death Squad, a criminal given a second chance by agreeing to risk his life over and over again in the Nullands. His latest mission is the kind he usually avoids: babysit an inexperienced lab tech while they hunt down the dangerous creature that escaped a research lab. Calvin is the lab tech given the unenviable task of hunting down the creature that escaped his lab, after it killed his friend and five others. An assignment he mostly landed for refusing to sleep with his boss, he knows damn good and well hes being sent to die. What he doesnt expect is Tarn, or how far hes willing to go to survive.
