

To be honest with ones self is not an easy task, it takes guts. There are minor even major issues that lay dormant, oftentimes hidden behind the shadows of denial. The exposure to the illumination of vital truths creates healing. The purpose of this book is to compel you to dig deep inside your innermost being and identify the person God has created without the cover of fig leaves. It is at this moment something awesome will begin to thrive in your life and those around you will be blessed.
