

An exciting and sexy romance story for adults! Adele is a successful associate lawyer at a great law firm. Her success has nothing to do with her sleeping with one of the partners, but it's certainly a nice bonus. However, her oh so comfortable life is about to change! When Adele is put on a tough case involving medical fraud, she's required to pretend to be married to Dan. Dan is a handsome investigator who works for the firm. But despite his good looks, she's never really got on with him; he's just too immature. That said, the more time they spend together on the case, the more she realizes there's something about him she could really grow to like. But will they have time to explore a relationship with all the drama of their new case? Find out in this emotional and racy fake marriage romance. Suitable for over 18s only due to sex scenes so hot, you'll want a PI to uncover the sexy truths about you.
