

## Stone Hearts Woman

Heading out west to Nebraska becomes a nightmare when Aiden Connors fiance deserts her. Having a knife held to her throat by a blond-haired Cheyenne warrior only adds to her terror. All she wants is to return home to her family in St. Louis, but a blizzard traps her and her wounded captor in a cabin in the wilderness. After the betrayal of his mothers people, Stone Heart has sworn to never again speak the language of his white father. He vows to see that the surviving Northern Cheyenne, the Beautiful People, are allowed to return to their home. But the red-haired Irish woman will surely die if he abandons her. As they weather the storm and fight together to survive, they find that, despite their different worlds, their hearts are one and the same. When Stone Heart leaves her to free his people imprisoned at Ft. Robinson, Aiden determines to help him in any way she can. Only then can she truly be Stone Hearts Woman.
